

Medical Pharmacy Claims Billing: NDC Requirements and Policy Guidance

Background

The Deficit Reduction Act of 2005 (DRA) included specific data submission requirements necessary to collect Medicaid drug rebates from drug manufacturers for physician-administered drugs. Additionally, Social Security Act Section 1927 requires state drug rebate participation. State Medicaid programs must gather and submit drug utilization information in order to secure drug rebates and receive Federal Financial Participation (FFP) for these drugs.

For more information on the Medicaid Drug Rebate program, visit <https://www.medicaid.gov/medicaid/prescription-drugs/medicaid-drug-rebate-program/index.html>.

Alaska Medicaid outpatient drug coverage regulations can be found at [7 AAC 120.110 Covered Outpatient Drugs and Home Infusion Therapy](#).

Alaska Medicaid drug payment regulations can be found at [7 AAC 145.400 – 7 AAC 145.410](#).

Applicability

Drug rebates are applicable to:

- Claims for medications administered in physician's offices, clinics, and other outpatient settings, including Medicare part B and C crossover claims.
- National Drug Code (NDC) information used in conjunction with appropriate HCPCS/CPT codes for rendered services.
 - NDC codes should be used with "A", "C", "J", "P", "Q", and "S" codes.
 - Though not all-inclusive, providers may refer to the NDC/HCPCS Crosswalk at <https://www.dmeptac.com/crosswalk/2017.html> to determine the appropriate HCPCS code for the NDC being used.

Drug rebates are not applicable to:

- IHS and tribally operated 638 facilities reimbursed at the federally published all-inclusive rate.
- ESRD bundled claims unless modifier "AY" is used to indicate an item or service rendered to an ESRD patient is not for treatment of ESRD.

Guidelines for Reimbursement

To correctly identify the drugs and manufacturers to invoice and collect rebates, the Centers for Medicare and Medicaid Services (CMS) deemed that the use of NDC numbers is critical because there often several NDCs linked to a single HCPCS code.

- Alaska Medicaid will pay claims submitted for these drugs only if the manufacturer participates in the Federal Drug Rebate program and federal matching funds are available.
 - Quarterly Drug Rebate listings are available on the CMS website <https://www.medicaid.gov/medicaid/prescription-drugs/medicaid-drug-rebate-program/data/index.html>.
- Bill the National Drug Code (NDC) for the actual drug that is administered.
- Record the NDC into the patient record.
- Do not use a miscellaneous code if a specific HCPCS-NDC match is available.

Finding NDC information

The NDC is found on the prescription drug label of the drug container (e.g. vial, bottle or tube). The NDC is a universal number that identifies a drug or a related drug item.

Deciphering the NDC Label

NDC consists of 11 digits in three sections:

Sometimes, the NDC on a product label does not include all 11 digits. When this occurs, it will be necessary to add leading zeroes to the appropriate section to create the 5-4-2 configuration. Record NDCs on your claims without hyphens or spaces.

NDC Label Examples

	Example #1	Example #2	Example #3
Product label indicates:	54225-1798-29	452-72-89	45-6-9
Submit on claim as:	54225179829	00452007289	00045000609

NDC Units

Acceptable units of measure for recording NDC quantities are as follows:

Code	Unit Type	Description
UN	Unit	Powder for injection (needs to be reconstituted), pellet, kit, patch, tablet, device
ML	Milliliter	Liquid, solution, or suspension
F2	International Unit	Products described as IU/vial or micrograms
GR	Gram	Ointments, creams, inhalers, or bulk powder in a jar

Billing Note

Milligram (mg) is **not** an acceptable unit qualifier when billing NDC quantities.

Drugs administered using a mg dosage must be converted for billing to *UN* if in a solid/powder form or *ML* if in a liquid/solution form. Only use *GR* if the drug meets the description for the grams unit type.

Refer to the CMS *Drug Products in the Medicaid Drug Rebate Program*¹ database for assistance in determining the correct "Unit Type" required for billing.

¹ <https://data.medicaid.gov/Drug-Pricing-and-Payment/Drug-Products-in-the-Medicaid-Drug-Rebate-Program/v48d-4e3e/data>

Converting NDC Units to HCPCS Units

Providers are required to submit the NDC unit of measure and units administered as well as the HCPCS equivalent units on the claim form. The requirement is the same for Medicaid and Medicare crossover claims. Providers must identify the NDC, unit of measure, amount administered, the NDC strength, HCPCS code and HCPCS unit of measure.

Billing Note

NDCs must be billed with the corresponding HCPCS based on description and quantity administered.

Claims may be denied if a misc. HCPCS code is billed when an appropriate NDC to HCPCS match exists.

Example

The NDC unit of measure for 60793070010 is mL and 1 mL was administered. The NDC strength equals 600,000 iU per mL. The corresponding HCPCS code, J0561, is measured at 100,000 iU per billed unit.

In this example, 1mL of this NDC equals 6 units of J0561.

$$\frac{(NDC\ Strength) \times NDC\ Administered}{HCPCS\ Units\ of\ Measure} = HCPCS\ Billed\ Units$$

$$\frac{(600,000\ iU/mL) \times 1mL}{100,000\ iU} = 6\ Billed\ Units$$

The following information would be reported on the claim form for this NDC:

Description	Example Value
N4 qualifier	N4
11-digit NDC number from the drug label	60793070010
NDC unit of measure	mL
NDC units administered <i>Note: Insert a decimal when reporting a fraction of a unit up to three decimal places.</i>	1 or 1.000
Corresponding HCPCS codes	J0561
HCPCS units	6
Drug revenue code (<i>institutional claims only</i>)	0636

Billing Note

Decimals must be used on all Medicaid and Medicare claims when billing a fraction of an NDC unit.

Partial units billed without a decimal may be denied for excessive units.

CMS-1500 Claim Form

Record the NDC information in the shaded area above the claim line in field 24.

24. A. DATE(S) OF SERVICE						B. PLACE OF SERVICE	C. EMG	D. PROCEDURES, SERVICES, OR SUPPLIES (Explain Unusual Circumstances)			E. DIAGNOSIS POINTER	F. \$ CHARGES	G. DAYS OR UNITS	H. UNIT / Qty Per	I. ID. QVAL	J. RENDERING PROVIDER ID. #
