

Pharmacist and Pharmacy Professional Group Enrollment Training

Training for enrolling as a Pharmacist or a Pharmacy Professional Group will be held on the following date in September. The training is a required step in the enrollment process. A train-the-trainer model will be used. Pharmacists who wish to enroll must either attend the training module personally or work through your organization's designated trainer. Once a pharmacist or their organization's trainer has fulfilled the training requirement, the pharmacist will receive an enrollment window. Due to the volume of applications and the necessary risk-based screening that is required, the enrollment windows will help ensure the applications are processed efficiently.
