Re-enrollment Has Begun and is Required of All Providers

The Alaska Department of Health and Social Services' current Medicaid Management Information System (MMIS) is transitioning to Alaska Medicaid Health Enterprise.

The first phase of this transition requires re-enrollment of **all** active providers who want to continue participation in the Alaska Medical Assistance Program.

Re-enrollment is necessary to collect additional data elements required by the new MMIS and to ensure Alaska Medical Assistance Program records are up-to-date and in compliance with federal and state regulations.

Provider re-enrollment is required of all participating providers and must be completed by **March 1, 2013**.

Online re-enrollment training is available at <https://learn.medicaidalaska.com>.

Providers who have received their re-enrollment notice containing their unique authorization code can get started with the re-enrollment process at the Alaska Medicaid Provider Enrollment Portal at <https://enroll.medicaidalaska.com>.

If you have any questions concerning the Alaska Medicaid Health Enterprise re-enrollment process, please contact the Re-enrollment staff at 907.644.6800 or in-state, toll-free at 800.770.5650.
