## HOW TO BILL NEW IMMUNIZATION ADMINISTRATION CPT CODES 90460 AND 90461

On January 1, 2012; new immunization administration CPT codes 90460 and 90461 for those 0 through 18 years of age became effective. Alaska Medicaid will pay for no more than one 90460 claim per day, regardless of the number of injections given. Additionally, a multi-component vaccine, such as MNM, is considered one vaccine, and qualifies as a single 90460 injection only (unless a separate injection has already been billed as a 90460 that same day, in which case the MMR could qualify for a single unit of 90461).

Alaska Medicaid immunization bil in guidelines and examples are provided below. These examples do not include all vaccines/situations that may be encountered. If you have any questions, please contact ACS Provider Inquiry at 907.644.6806, option 1, or 800.770.5650, option 1, 1 (toll free, in-state).

## IMMUNIZATION BILLING GUNELINES

Vaccine	ICD9 Code	# of Vaccine Components	Billed Units Allowed	
HPV	v04.89	1	1	1
Influenza	v04.81	1	17	
Meningococcal	v03.89	1	1	
Pneumococcal	v03.82	1		
Td	v06.5	2	1	
DTaP or TdaP	v06.1	3	1	
MMR	v06.4	3	1	CV
DTaP-Hib-IPV	v06.8	5	1	10.
