Issue Date: 01/27/2014

Run Length: 12 weeks

Message: Effective for claims with dates of service on and after 04/01/2014, Alaska Medicaid is required to implement the new NCCI Procedure-to-Procedure (PTP) edits to prevent immunization codes from being billed with Evaluation & Management (E&M) services.

The NCCI manual provides the following guidance (chapter XI, page XI-7):

“CPT code 99211 (evaluation and management service, office or other outpatient visit, established patient, level I) is not separately reportable with vaccine administration HCPCS/CPT codes 90460-90474, G0008-G0010. Other evaluation and management (E&M) CPT codes are separately reportable with a vaccine administration code if the E&M service is significant and separately identifiable, in which case the E&M CPT code may be reported with modifier 25.”
