Remittance Advice (RA) Message

Title: **New Website to Help Address Health Care Workforce Shortages and Improve Care**

Issue Date: 10/21/2020

Run Length: 6 weeks

Provider Type(s): All

Message: The Alaska Division of Senior and Disabilities Services, ADvancing States and Centene Corporation, in a unique public-private partnership, have developed and launched [ConnectToCareJobs](#), a website designed to help address health care workforce shortages during the COVID-19 public health emergency and beyond. [ConnectToCareJobs](#) links residential facilities (e.g. skilled nursing facilities, assisted living facilities) that need employees with health care professionals who need jobs. The initial launch is focused on residential care facilities, however the site may be expanded to include hospitals and home care agencies in subsequent phases.
