

Remittance Advice (RA) MessageTitle: **DHSS Reorganization: Website Workaround**

Issue Date: 06/29/2022

Run Length: 6 weeks

Provider Type(s): All

Message: Within the coming weeks, Department of Health and Social Services (DHSS) website URLs containing "dhss" will be replaced with URLs that include "health" to represent the new Department of Health or "DFCS" to represent the new Department of Family and Community Services. In the interim, the legacy DHSS home page now points readers to the new department websites. Due to this change, bookmarks and web searches may result in page errors.

To reach the temporary DOH website, visit dhss.alaska.gov/health. To reach the Division of Health Care Services home page, go to dhss.alaska.gov/health/dhcs. All HCS program subpages remain accessible from this page. Alternately, to access a specific HCS subpage that you have bookmarked, add "/health/" to the URL between "gov" and "hcs" to navigate to the desired page. For example, to reach the HFL&C page, add "health" so that the URL reads dhss.alaska.gov/health/dhcs/pages/hflc/.

If you are unable to locate a HCS page, please contact Susan Dunkin at susan.dunkin@alaska.gov for assistance.
