Remittance Advice (RA) Message

Title: **Unused Travel Vouchers**

Issue Date: 11/23/2022

Run Length: 8 weeks

Provider Type(s): All

Message: Travel vouchers are only usable by the member for the dates of service indicated on the service authorization in which the voucher was written for. If there is a change in travel dates or a new service authorization is created for the travel event, any vouchers not utilized must be destroyed and new vouchers generated to accommodate the change. If the dates of service or service authorization number are incorrect on the voucher, Alaska Medicaid will deny the transportation and accommodation services and the member may be responsible for those charges.
